

LANDA®
PRESSURE WASHERS

Since 1969

North America's **LARGEST** Manufacturer
of Industrial **PRESSURE WASHERS**

PGHW

*Industrial-Duty, Self-Contained,
Gasoline-Powered, Hot Water Pressure Washer*

- Up to 4.8 GPM, 4000 PSI
- Heavy-Duty Honda or Vanguard Engines
- Landa Belt-Drive Pump with 5-Year Warranty
- 2000W Generator

▲ Rugged **High-Pressure Landa Pump**, with three ceramic plungers, forged brass head and five-year warranty, is connected to the engine by a belt-drive assembly that features cast-iron bushing **Pulleys** and two notched "V" cogged belts, which provide a cooler operation and longer life; also **Two-Bolt Adjustment** makes it easy to adjust the belt tension.

■ High-efficiency **Beckett Burner** is mounted on the end for ease of servicing and adjustments.

■ Heavy-duty **Fuel-Water Separator** has replaceable element for removing water that can damage burner fuel pump.

■ 50 ft. of 3/8", double-wire braid **LANDA Tuff-Skin Hose** rated for up to 5800 PSI and featuring a 24-inch **Hose Guard** for burst protection.

■ Rugged, 1¼-inch square tube **Frame** has **Forklift Guides** and is protected by an all-weather resistant epoxy powder coat finish.

■ Super-duty **Heating Coil**, made of cold-rolled, Schedule 80 steel pipe, has a five-year warranty and is surrounded by an aluminized steel inner wrap and stainless steel outer wrap.

■ Industrial-duty **Gasoline-Powered** Honda or Vanguard engine with overhead valves; all have keyed **Electric Start**.

■ Helpful **Tri-Lingual Labels** with operating instructions in English, Spanish and French for owner and operator protection.

■ Many **Safety Features**, including redundant devices such as a rupture disk, thermal pump protector and high-temperature shut down to guard against any build up of excessive pressures or heat.

■ Conveniently located **Control Panel** with **steam combination valve**, **adjustable thermostat**, **detergent injection valve**, **burner on/off switch**, **monitor light** and **hour meter** for operation and maintenance monitoring.

■ Durable polyurethane **Battery Box** with vibration isolators for secure ride.

■ Rust-free **Float Tank** with stainless steel inlet filter provides backflow protection and inlet **Detergent Injection** for applying soap while washing in high pressure mode.

■ **Power Platform** is mounted on vibration isolators, which extends the life of the key components.

■ Insulated, spring-loaded **Trigger Gun** with inline **Detergent Injection** and insulated, stainless steel, dual-lance **Variable Pressure Wand** make it easy to switch between wash and rinse modes.

■ Four quick-couple **Nozzles** are made of hardened stainless steel and are mounted for ready access.

■ Two color-coded, polyethylene **Fuel Tanks** for gasoline (5 gal.) and diesel (10 gal.) that are translucent for monitoring fuel levels; both have elevated fuel lines to prevent debris from damaging the burner.

North America's **LARGEST** Manufacturer
of Industrial **PRESSURE WASHERS**

PGHW

Industrial-Duty, Self-Contained,
Gasoline-Powered, Hot Water Pressure Washer

- Up to 4.8 GPM, 4000 PSI
- Heavy-Duty Honda or Vanguard Engines
- Landa Belt-Drive Pump with 5-Year Warranty
- 2000W Generator

WHY CHOOSE LANDA's PGHW

For more than a decade, the PGHW has been *LANDA's* most popular gasoline-powered, hot water pressure washer. It combines the versatility of a compact size yet the ruggedness and cleaning power of a full-skid pressure washer. The four PGHW models deliver cleaning power of up to 4000 PSI with a flow rate of up to 4.8 GPM. Only the full-size skid-mounted pressure washers come close to this much cleaning muscle. The PGHW is packed with:

QUALITY: Powered by reliable Honda or Vanguard engines, all with electric start, the PGHW models feature top-of-the-line, oil-bath, tri-plunger, belt-drive Landa Pumps with 5-year warranty. The heating coil is made of Schedule 80 1/2-inch cold-rolled pipe with a stainless steel outer wrap. The sturdy steel frame gets all-weather protection from an epoxy powder coat finish.

VERSATILITY: The PGHW needs no electricity. In fact, it generates it! The engine drives a 2000W Winco generator for powering the burner as well as a 120V outlet for low-wattage applications. The PGHW has forklift guides for transporting or an optional wheel kit. The dual fuel tanks provide for hours of continuous cleaning and the float tank allows high-pressure soap application.

SAFETY: As with all *LANDA* pressure washers, the PGHW comes certified to the rigid UL-1776 safety standards, including: 24-inch hose guard for burst protection; thermal pump protector; high-temperature shut down to prevent super-high heat build up; and rupture disk to vent any build up of excessive pressure in the heating coil.

PGDC Specifications
