WHY CHOOSE THE VHP

The VHP—an abbreviation for Vertical Hot (Water) Propane—is the solution when portability is needed indoors. Featuring a carrier with snug-fit band for a 10-gallon LP tank, the VHP easily maneuvers most anywhere with tubed pneumatic tires. The four VHP models offer:

SELECTION: Models come in 120V and 230V configurations and deliver cleaning power of up to 2.5 GPM and 2000 PSI. There is also a 700 PSI model with steam combination.

QUALITY: The VHP includes direct-spark piezo ignitor, a 10 ft. gas hose, a variable pressure wand, rugged 10-gauge steel chassis, protected by an epoxy powder coat finish, and a tri-plunger, belt-driven pump with 5-year warranty.

SAFETY: The VHP has a ground fault circuit interrupter and is certified to the rigid UL-1776 safety standards for pressure washers. Also it is manufactured in a state-of-the-art plant certified to the internationally recognized ISO-9001 quality manufacturing standards.
