

LANDA[®]
PRESSURE WASHERS

Since 1969

North America's **LARGEST** Manufacturer of
Industrial **PRESSURE WASHERS**

Cyclone

Flat Surface Cleaning Attachment

- Easily attaches to Hot- or Cold-Water Pressure Washer
- Up to 5 GPM, 4000 PSI
- Spins at 2000 RPM
- Fatigue-free Trigger Bar

■ Fatigue-free **Handle and Trigger Bar** instantly starts and stops the unit for operator protection

■ Easy-turn **Swivel Hose Connection** keeps the hose from tangling while attached to the pressure washer for easy handling and maneuvering

■ Easy-to-clean, high-pressure **Inline Filter** helps minimize maintenance by preventing spray nozzles from plugging

■ **Stainless steel Spray Bar** with two precision spray nozzles spins at the astounding rate of 2000 RPM

■ **Rugged Steel Tubing** with durable epoxy coat finish for all-weather protection

■ **Tri-Lingual Operating Instructions and Warnings** in English, Spanish and French for convenience of operator and additional liability protection for owner

■ **Collapsible Handle** with the twist of a wing nut makes for easy transporting and storage

■ Self-lubricating **Rotary Union** handles pressures of up to 4000 PSI and a rotational rate of 2000 RPM at water temperatures of up to 175°F.

■ **Tubed Pneumatic Tires** absorb vibration and make handling the Cyclone an easy touch

■ **Sealed Swivel Caster** allows the Cyclone to maneuver easily in and out of tight spaces

■ **Rust-free and rugged, but light, Polyethylene Housing** gives the Cyclone the life and durability of industrial models but the ease in maneuvering of light-weight designs; narrow enough to fit through any doorway

The Cyclone attaches to a hot- or cold-water pressure washer and 'mows' grime fast
