

LANDA[®]
PRESSURE WASHERS

Since 1969

North America's **LARGEST** Manufacturer
of Industrial **PRESSURE WASHERS**

SLX-SLT

The Only Portable Hot Water Pressure Washer
that Delivers 200°F Cleaning at up to 10 GPM

- Dual-Gun Option
- Powered by Gasoline or Diesel; Diesel-Heated
- Belt-Drive Landa Pump with 7-Year Warranty
- 3/4" Schedule 80 Coil

▲ Industrial-duty tri-plunger **Landa Pump** designed to run at low RPM for long life, 7-year warranty, with single-rail true-track **Pulley Adjustment**.

■ Pre-plumbed with **3-Way Valve** to bypass float tank when drawing water directly from an auxiliary tank.

■ 50-gallon diesel and 25-gallon gasoline **Fuel Tanks** (15-gallon diesel and 10-gallon gasoline on SLT) provide hours of uninterrupted operation; with elevated fuel lines to avoid suctioning of settled debris.

■ 50 ft. of double-wire braid **High Pressure Hose** rated for up to 5800 PSI and featuring a 24-inch safety hose guard for operator burst protection.

■ High-efficiency **Burner**, with dual rings for "dialing in" air flow, has a **Fuel-Water Separator** for fuel pump protection.

■ Extra-large **Heating Coil** made of cold-rolled, 3/4" Schedule 80 steel pipe with 5-year warranty; features **Stainless Steel Top Wrap**; unique lift-out design for easy and quick **Coil Access**.

■ Water-resistant, metal **Control Panel** has adjustable thermostat, combination hour meter and tachometer, volt meter, burner switch and tri-lingual operating instructions for added safety.

■ Rugged 2" x 4" x 1/8" thick box steel frame, with compact footprint, shields key components; further protected by weather-resistant **Epoxy Powder Coat** finish; **Power Platform** is vibration isolated to minimize frame stress.

■ **Illustrated Warning Labels** universally understandable for liability protection.

■ Adjustable **Detergent** and **Steam Valves** provide precise metering of soap and on-demand steam cleaning.

■ Gasoline-powered **Vanguard and Honda Engines**, or water-cooled, 15-24 hp diesel **Lombardini Engine** all come with keyed starter for easy start-up and protection against unauthorized use; polyurethane **Battery Box** with vibration isolators protects and firmly secures battery (battery not included).

■ Efficient **2,000-Watt Generator** produces power for burner.

SLX

■ **Many Safety Features**, including a rupture disk, thermal pump protector, flow switch, unloader valve, and safety lock on the trigger gun.

■ **Corrosion-resistant Float Tank** has stainless steel inlet filter and 3/4" float valve with anti-siphon backflow protection; also allows for introduction of detergents in high-pressure mode.

■ **Insulated, fatigue-free Trigger Gun**, with swivel crimp fitting for a tangle-free hose. **Stainless steel, dual-lance Variable Pressure Wand** features an ergonomic design and easy adjusting of the water pressure while cleaning.

SLX-SLT

The Only Portable Hot Water Pressure Washer
that Delivers 200°F Cleaning at up to 10 GPM

- Dual-Gun Option
- Powered by Gasoline or Diesel; Diesel-Heated
- Belt-Drive Landa Pump with 7-Year Warranty
- 3/4" Schedule 80 Coil

WHY CHOOSE LANDA's SLX or SLT

When it comes to heavy-duty grease or grime, most high-volume, hot water pressure washers fall short with their 150°F water. Landa's SLX, and smaller SLT, are the first power washers ever designed to deliver a high-volume flow at 200°F water, hot enough to melt the toughest of oily messes. The SLX delivers enough hot water flow—up to 9.9 GPM—that you can operate two spray guns at the same time! Other benefits include:

QUALITY: Packed with Landa quality throughout, the SLX and SLT feature a top-of-the-line, belt-drive Landa Pump with 7-year warranty and low RPM for extended life, as well as a giant Schedule 80 heating coil, made of up to 300 ft. of 3/4-inch steel pipe with 5-year warranty.

DURABILITY: Extraordinarily rugged frame is made of 2-by-4-inch box steel with an all-metal power platform cushioned by 10 vibration isolators to minimize frame stress.

EFFICIENT: The SLX-SLT is heated by a high-efficiency Beckett burner with dual rings for dial-in air flow. The heating coil is amazingly efficient due to its unique "breathing" design so it heats quieter, doesn't soot up and promotes optimum heat exchange.

FUNCTIONAL: The SLX-SLT has a remarkably compact footprint, is certified to the rigid UL-1776 safety standards, is pre-plumbed for drawing water from an auxiliary tank, has six forklift guides for portability and the control panel is ideally positioned for when the unit is mounted on a trailer or truck bed.

SLT

SLX and SLT Specifications

Part No.	GPM	PSI	Engine	HP	Engine Fuel	Pump RPM	Burner	BTU's	L x W x H	SHIP WT.
